NEW HIMS WEBSITE ENHANCEMENT: SOLUTIONS PAGE

Innovative technology

Transform your integrated health care practice – one user at a time. Axiom's progress note-centric design creates greater efficiencies. Avoid undercoding with our intuitive coding recommendation feature. Monitor monthly stats with integrated clinical decision support tools and analytics.

In the last quarterly newsletter, we announced the launch of the new HiMS website, which emphasizes a more user-friendly design so you can easily find what you need to transform your integrated health care practice. This quarter, we're highlighting the new Solutions page, which features our AI-enabled integrated health care platform, Axiom. Do you want to become more productive and more profitable, while helping patients achieve better outcomes? [Check out the Solutions page](#) and request a demo today.

FEATURED BLOGS

[Interoperability Part 1, What Does it Mean and How Does it Benefit My Clinic?](#)

The health information technology lexicon is ever-changing. Buzzwords like “big data,” “Internet of Things,” or “popHealth” would mean little to a healthcare provider 20 years ago. Among these modern medicine words commonly heard in the industry is “interoperability.” But what does it mean? And how does it help your clinic? [Find out by reading the blog.](#)

[Interoperability Part 2, How Interoperable Systems Improve Patient Care](#)

After reading part 1 of the “Interoperability” blog series, check out part 2, which examines how interoperable systems improve patient care and looks at Axiom, an integrated health care platform designed to transform and elevate your practice. [Find part 2 here.](#)

Featured Podcast: Behavioral Healthcare Executive Podcast episode 022, Khalid Al- Maskari, HiMS CEO

[Tune in to listen](#) to health expert Khalid Al-Maskari, founder and CEO of HiMS, talk with the BHE Podcast crew about common pain points for behavioral health care organizations that lead to communication breakdowns. Al-Maskari provides steps that can be taken to improve organizational communication and unearths what questions you should be asking vendors when inquiring about an EHR.

Visit our [Knowledge Center](#) for more insights and trends affecting the integrated health care landscape.

HiMS IN THE NEWS

5 Ways to Effectively Use Data in Your Behavioral Health Care Practice

Behavioral Healthcare Executive, July 12, 2021

Behavioral healthcare practices have a tremendous amount of data at their fingertips. In 2017, [data officially surpassed oil](#) as the world's most valuable resource, and the healthcare industry is one of the largest generators of data. In 2018, [approximately 30%](#) of the world's data volume was being generated by the healthcare industry, and that number is predicted to be over 36% by 2025, growing faster than manufacturing, financial services, and media and entertainment. [Read more.](#)

Why Behavioral Health Care Organizations Should Rethink Patient Communication

Behavioral Healthcare Executive, Sept. 3, 2021

Communication is the [key to improving](#) all aspects of behavioral health patient care and clinics. Studies show that nearly 66% of all medical errors were a result of ineffective team communication. Much has been written about how to improve internal communication across a clinic, but communication between patient and care provider is just as important to improving patient care and the overall success of a clinic. [Read more.](#)

CONFERENCES

Visit our booth in the vendor hall to learn more about our all-in-one mobile communication app that works seamlessly with any EHR.

EXECUTIVE Leadership Retreat

The 2021 OPEN MINDS Executive Leadership Retreat

September 20-23, Gettysburg, PA

HiMS was a proud sponsor of the Executive Leadership Retreat held in Gettysburg, PA from Sept. 20-23. During the event, health and human service leaders gained new strategy insights, business practice models and personal resiliency tools needed to tackle the challenges facing the health and human service industry.

TECHNOLOGY & Analytics Institute

The 2021 OPEN MINDS Technology & Analytics Institute

October 25-28, Las Vegas, NV

At the 2021 Open Minds Technology & Analytics Institute October 25-28 in Las Vegas, attendees will walk away with “an overview of the trends driving innovation in health and human service market, a review of the OPEN MINDS strategic framework for launching sustainable treatment programs, and a deep dive with case study presentation on cutting-edge new clinical programs to ensure consumers have access to the right services and supports at the right time.” Find out more about individual speakers and [register here](#).

November 1-2, Salt Lake City, UT

The Critical Issues Facing Children & Adolescents in-person and virtual conference will take place November 1-2 in Salt Lake City and online. The conference aims to increase awareness of critical behavioral health and substance use issues facing today's youth. Speakers and sponsors alike will share current knowledge and tools to develop strategies that promote healthy growth and development for youth. View the agenda and find out more [here](#).
