Customer Spotlight: Utah Behavioral Health Provider Gets ‘One-Stop Shop’ EHR

Fed up with their legacy EHR's shortcomings, the multidisciplinary team at **Southwest Behavioral Health Center** in St. George, Utah, demanded a different kind of solution – a one-stop shop enabling it to perform and track all of its activities in one environment. Enter Axiom. [Read more.](#)

Featured Blog: [Better Tech to Improve Patient Outcomes](#)

Better technology in the year ahead is set to drive significant progress toward our holy grail: delivering the best core functionality needed to compete and succeed in the world of **value-based care**. There are three exciting improvements we can expect to see impact our industry: [Read more](#).

[Eliminate These 3 Barriers to EHR Adoption](#)

By Khalid Al-Maskari

Behavioral Healthcare Executive

EHR systems can deliver major improvements in patient outcomes and provider performance, but they need to be implemented with care. As with any software, whether from a smartphone app or a global e-commerce platform, technology only works well when it's aligned with the way people think, work, and consume information.

On the Road Again: BRI Network 2023 Medicaid Managed Care Summit

We're excited to see you at our next event, the **BRI Network 2023 Medicaid Managed Care Summit**, March 30-31 in Nashville. Join us to learn more about award-winning EHR software, Axiom, and mobile communications app, AxiaGram!
