AWARD SPOTLIGHT: HiMS NAMED AMONG ARIZONA'S MOST ADMIRABLE COMPANIES!

We are proud to be named among Arizona's Most Admired Companies by AZ Business magazine and BestCompaniesAZ. HiMS was recognized for its excellence in workplace culture, leadership, social responsibility and customer opinion. [Read more.](#)

FEATURED BLOG: BEST PRACTICES FOR CUTTING THROUGH THE EHR CLUTTER

It's critical that health care providers have access to the technical capabilities they need to improve patient care, especially when treating complex conditions. EHRs are one way for practitioners to cut through the clutter, streamline communication and ensure one accurate view of the patient's care plan. [Read more.](#)

NEW WHITE PAPER: OVERCOMING CLINICIAN BURNOUT WITH AI

Behavioral health care providers are facing burnout-inducing stress at every turn, posing grave concerns for patients' welfare in the form of medical errors, hospital-acquired illness, staffing shortages, and reduced face time. Our new white paper, "Overcoming Clinician Burnout with AI," examines how EHRs are not just capturing data for improved patient care – they're leveraging the power of artificial intelligence to alleviate the burnout-inducing administrative tasks that divert attention away from patients. [Read more.](#)

LISTEN UP: TECHFOCUS PODCAST

Our Founder and CEO, Khalid Al-Maskari, is the featured guest on the August episode of the Arizona Technology Council's TechFocus Podcast. He discusses how HiMS helps integrated health care practitioners achieve better patient outcomes and stay ahead of the innovation curve. [Listen here.](#)

ON THE ROAD: MEET US IN COLORADO!

Join us at the CBHC 2022 Annual Behavioral Health Training Conference, Sept. 21-24, in Breckenridge Colo. to learn how Axiom leverages the power of AI to provide actionable data insights and builds a culture of improved care. We look forward to connecting with you to talk more about how Axiom can take your integrated behavioral health care practice to new heights. Visit us at booth #94 to learn more about what makes our award winning EHR software different.
