The Health Care Trends Edition

HEALTH INFORMATION MANAGEMENT SYSTEMS

Quarterly Insider

A WORD FROM OUR CEO AND FOUNDER

“We started the HiMS Quarterly Insider because we understand the value of communication and providing resources to our community and customers. Your practice is our passion, and we’re committed to ensuring the success of your patients, providers and staff members at every step of the way. One of the ways we do this is by always staying on top of trends and how the industry is changing. We hope you enjoy this content and [reach out](#) to us anytime with any questions or needs.”

Khalid Al-Maskari

IN THIS ISSUE:

- *Sneak Preview: AxiaGram™*
- *Featured Webinar: Four Health IT Trends to Watch in 2021*
- *HiMS in the News*
- *Industry Articles: Predictions for 2021*
- *Featured Award: Best in Biz Awards*
- *Featured Conference: AZ Tech Council's Spring MedTech Conference*

AXIAGRAM™ IS COMING SOON:

Early this quarter, HiMS will be officially launching AxiaGram™, an all-in-one communications platform that seamlessly integrates into any EHR. Featuring audio, video conferencing, instant messaging, shareable news feeds and more, AxiaGram will provide clinicians with everything they need in one HIPPA-compliant mobile application that is simple-to-use, powered by AI, and built from the ground-up to best serve the health care industry.

We look forward to sharing more information about this game-changing platform soon. Follow HiMS on [Facebook](#), [Twitter](#) or [LinkedIn](#), for the most recent news.

FEATURED WEBINAR:

The graphic is a purple-themed banner for a live webinar. In the top left corner, there is a black shield-shaped icon with a white play button and the text 'LIVE WEBINAR'. The top right corner features the HiMS logo (Health Information Management Systems). The main title 'Four Health IT Trends to Watch in 2021' is centered in white. Below the title, a white bar contains the date and time: 'THURSDAY FEB. 18TH 2021 • 1-11:30 a.m. MST'. A large white play button is overlaid on the center. At the bottom, two circular headshots are shown: Khalid Al-Maskari, CEO of HiMS, and Rod Cook, CEO of COPE Community Services. The bottom of the graphic includes the text 'Save the date at www.brighttalk.com'.

Four Health IT Trends to Watch in 2021

Tune in on demand [here](#) and listen to health care experts Khalid Al-Maskari, founder and CEO of HiMS and Rod Cook, CEO of COPE Community Services provide insights on “Four Health IT Trends to Watch in 2021.”

As COVID-19 reshaped health IT as we know it, 2021 will introduce new and evolving trends in the industry. Al-Maskari and Cook discuss the shifting landscape, including:

- The rise of mobile-optimized Electronic Health Records (EHRs)
- Newer and more advanced communication technology for use within clinics
- Developments in voice-to-text artificial intelligence
- The growth of the virtual behavioral health care industry

Webinar attendees will leave with a deeper understanding of where the health IT market is heading and how they can take advantage of changing demands to drive clinical success. As health care becomes increasingly technology-driven, IT professionals will learn more about the latest solutions that are helping clinics make a difference in the lives of their patients.

Featured Award: HiMS Wins Silver in 10th Annual Best in Biz Awards

In December 2020, HiMS was named a Silver winner in the Most Innovative Product of the Year, Healthcare and Medical Category in the [Best in Biz](#) Awards.

The Best in Biz Awards is the only independent business awards program judged by prominent editors and reporters from top-tier publications in North America. HiMS received this honor for its Rapid Response program that helped clinics overcome the challenges of COVID-19.

HiMS IN THE NEWS

[Artificial intelligence leading the way in EHR interoperability](#)

Physician's Practice, February 5, 2021

by Khalid Al-Maskari, CEO of HiMS

Artificial Intelligence (AI) is opening up new possibilities for Electronic Health Records (EHRs). Physicians have largely regarded EHRs as a time-wasting hindrance, but fortunately advancements in automation have increased the technology's utility value. While EHRs are not created equally, an interoperable EHR that can accurately handle administration, data management and patient relations can serve as an asset to clinics.....[Read more](#)

[To make practices more efficient, providers should look to AI](#)

Medical Economics, October 21, 2020

by Khalid Al-Maskari, CEO of HiMS

In an industry not known for its operational efficiency, artificial intelligence (AI) can offer a much-needed solution for practices struggling with inefficient Electronic Health Record platforms. As patient populations increase while provider availability stagnates, having an automated solution for data and patient management can make a significant difference in quality of care... [10 emerging trends in health IT for 2021](#)

Becker's Hospital Review, updated December 28, 2020

by Jackie Drees and Laura Dyrda

Health IT adoption skyrocketed in 2020 as hospitals, health systems and patients increasingly relied on digital health technologies for care delivery during the pandemic, setting the stage for continued growth and innovation in 2021.

Becker's health IT team has compiled 10 of the top health IT trends on CIOs' radars for next year, from telehealth to cybersecurity and big data....[Read more](#)

[How Health IT Interoperability Will Impact Healthcare in 2021](#)

EHR Intelligence

by Christopher Jason

As the healthcare industry embraces a new year, it is taking the lessons it learned in 2020 to move forward. A focus on health IT interoperability could be the crux of moving toward better public health reporting, patient matching, and interoperability in 2021....[Read more](#)

FEATURED CONFERENCE: AZ TECH COUNCIL'S SPRING MEDTECH CONFERENCE

The graphic features a central cluster of white icons on a dark blue background, including a person, a microscope, a pill, a brain, a heart, a plus sign, and a caduceus. The text 'MEDTECH CONFERENCE' is written in large yellow letters at the top left. The Arizona Technology Council logo is in the top right. The date and time 'THURSDAY, APRIL 15 8AM - 12PM' are in a yellow box. The website 'www.aztechcouncil.org/tech-events' and pricing 'AZTC Members \$25 Non-Members \$45' are in a yellow box at the bottom.

Please join the Arizona Technology Council for its fifth annual MedTech Conference on Thursday, April 15, 2021. This year, the event will again be held virtually. The MedTech Conference seeks to advance industry discussion from key perspectives through expert panel sessions, keynote speakers and event sponsors to provide opportunities in education, business development, capital formation and networking. Reserve your spot and register today [here](#).
