AxiomEHR is now part of Radicle Health

Radicle Health

We are thrilled to be part of the **Radicle Health** family! Radicle Health empowers human services agencies with innovative software that simplifies work, improves efficiency, and drives better outcomes. Supporting over 14,000 organizations across the U.S. and Canada, Radicle provides industry-leading EHRs and specialized solutions that streamline care and operations. Together, we will help human service agencies achieve meaningful outcomes for the communities they serve.

At Axiom, **we remain committed to providing the best EHR software for behavioral health agencies**, as a part of Radicle Health.

With Radicle's expanded investment in technology and support, we're more excited than ever about the future!

Today's Electronic Health Record System

An EHR is not just a productivity engine – the right EHR has the potential to reshape health care. That's what we set out to do for behavioral health care with AxiomEHR. Read more about the benefits of an EHR like AxiomEHR in our e-book, **Today's Electronic Health Record System**.

This helpful resource focuses on:

· The history and evolution of EHRs
· The impact of AI on EHRs
· How to make EHRs work for you

How AI Agents Will Make EHRs Even More Productive

AI agents—software programs designed to autonomously perform tasks, analyze data, and assist with decision-making—are an exciting development for behavioral health care, bolstering our efforts to transform EHRs into even more powerful tools for value-based care that increase clinicians' productivity.

AI Agents are an **exciting development for behavioral health care**, bolstering our efforts to transform EHRs into even more powerful tools for value-based care that increase clinicians' productivity.

With AxiomEHR, AI agents are already capturing conversations during clinician visits and using transcripts to populate treatment plans, suggest diagnoses, and drive cost-effective coding and revenue processes.
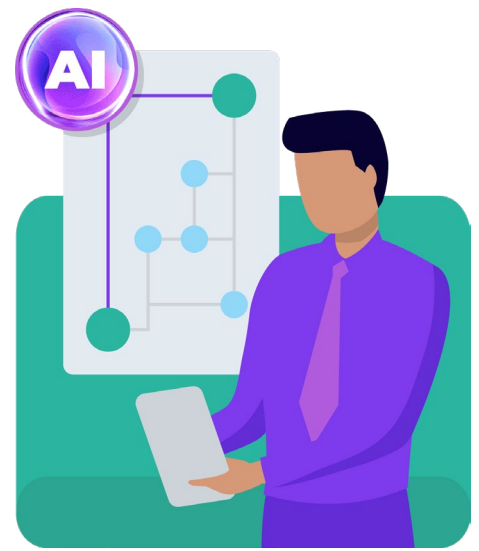

We're using AI agents in AxiomEHR.
